

# The 10th Meeting of Tokai University Micro/Nano Enlightenment [Tune]

December 14, 2018

Hawaii Tokai International College, HTIC

<http://www.mnc.u-tokai.ac.jp/tune>

Micro/Nano Technology Center (MNTC) cordially invites participants to attend an academic lecture (Tune) and expand your knowledge in state-of-the-art research developed in Tokai University's medical science and engineering. The lecture consists of two invited talks followed by technical discussions consisting of oral and poster presentations. **The thematic focus of 10th Tune is Quality of Life (QOL) that can benefit humanity through micro/nano technologies.** We anticipate high number of attendees to provide high quality scientific reports with diversified expertise on science and technology to promote cross disciplinary interactions.

## *Invited Talk 1*

**Dr. Margaret A Perkinson, PhD,**  
University of Hawai'i at Manoa, USA

## *Invited Talk 2*

**Prof. Naoaki Ishii**  
Tokai University, Japan

## *Poster Session*

We welcome contributions from graduate/master students, post-doctoral fellows and researchers.

Please register online from the following web page,

### ★Important Dates

September 30, 2018 Deadline for online registration

October 15, 2018 Deadline for one page abstract submission
